Further information for International Patients:

• All patients and their relatives are met upon arrival at The Portland Hospital and assistance is provided with admission including accompanying patients and relatives to their rooms.
• Upon admission, health and safety regulations and the fire routine are explained. The International Office also provides information on the equipment in the room, a description of the hospital and the services provided.
• The International Office provides a vital service in arranging interpreters for all non-English speaking patients and acts as a liaison and interpreter between patients, consultants, ward staff and other departments. The International Office is also on hand to deal with any problems or complaints if they arise.
• Our chefs offer an independent Middle East menu and other room services include Arabic language TV and newspaper services.
• Services for visitors and patients’ relatives include arranging transport both to and from the Hospital and/or airport, and locating suitable accommodation.
Clinical Departments
Children’s Services

The Portland Hospital is the UK’s largest Independent Children’s Hospital, comprising over 60 paediatric beds including a 10 bed paediatric intensive care unit, neonatal intensive care unit, neuro-rehabilitation unit, day-case unit, and dedicated medical and surgical wards.

Attracting outstanding physicians and surgeons in every speciality has enabled us to develop the full breadth of children’s services which ensures a fully integrated healthcare approach: from day case ENT surgery to multi specialist craniofacial and neurosurgery alongside complex medical cases. Our PICU unit offers back up support for all our paediatric specialities as well as treatment for critically ill children transferred from other UK or International Hospitals.

At The Portland Hospital we never forget that our patients are children - key to a child’s preparation for treatment and subsequent recovery is our team of dedicated paediatric nurses and play therapists who not only care for the child but also the wider family in a child friendly environment.

Maternity Services

The Portland Hospital is the only fully private maternity unit in the UK, placing emphasis on safety and quality as well as providing a premier maternity service to ensure that each birthing experience is memorable for all the right reasons.

With around 2,000 deliveries a year, our ethos is to put women at the centre of their own maternity care, empowering them within a supportive environment where we have the time to treat them as an individual. Our team of experienced Midwives, Consultant Obstetricians, Consultant Obstetric Anaesthetists, Interventional Radiologists and Consultant Neonatologists work together as a multidisciplinary team to oversee the highest standards of care. Our maternity outcomes are a testament to the high levels of care provided.

Our dedicated Maternity Services Advisor will assist all patient enquiries, from finding the perfect Obstetrician through to advising on antenatal classes and different delivery packages available.

Audiology

The Portland Hospital has a premier team of consultants, audiologists and therapists to assist with both adults and children with hearing impairments and balance or vestibular disorders.

Our audiology and audiological medicine department is the largest and most comprehensive private diagnostic and rehabilitative hearing and balance service within the UK with a dedicated cochlear implant programme.

Our team includes physicians, scientists, audiologists and specialist speech and language therapists to provide a tailored approach to patients’ audiological needs. We can offer clinical and diagnostic services that are usually only found in a small number of specialised teaching hospitals and research facilities.

We provide newborn babies with hearing tests as recommended by the National Hearing Screening Programme (NHSP). We also carry out hearing investigations on children under the care of the hospital’s paediatricians, ENT surgeons and paediatric audiological physicians.

Therapies

The therapy department at The Portland Hospital supports the work of our Consultant specialists to provide our patients and their families with a holistic and multi-disciplinary programme of care.

We have a dynamic and enthusiastic team of therapists specialising in either Paediatrics or Women’s Health.

The full spectrum of therapies is accessible on an inpatient or outpatient basis, as an isolated therapy or as part of a comprehensive multidisciplinary assessment and rehabilitation program.

For complex paediatric patients an initial multidisciplinary assessment will take place whereby a comprehensive report will be provided to the referrer prior to commencing an integrated rehabilitation program. Where required the therapists liaise with external agencies and support groups. The therapists work closely with the Consultant specialists at The Portland Hospital, often accompanying them in clinic.

Imaging

The Portland Hospital’s state-of-the-art diagnostic and imaging technology enables our specialists to diagnose medical conditions quickly and accurately.

Our imaging services are available to adult (male and female) and paediatric patients and include: CT, MRI (both available under General Anaesthetic), X-ray, fluoroscopy and a comprehensive range of Interventional Radiology services. Alongside this our busy ultrasound service provides both paediatric scanning as well as the full range of obstetrics and gynaecology scanning. The department also offers a paediatric neurophysiology service and same day appointments.

All examinations are undertaken by highly-skilled radiographers, sonographers and consultant radiologists in a child-friendly environment. Radiology reporting is undertaken by either a specialist adult radiologist or paediatric general or neuro-radiologist according to speciality. The majority of our Paediatric Radiologists have their NHS practices at Great Ormond Street Hospital.

Acute Neurological Rehabilitation

Our acute neurological rehabilitation unit is unique in the private sector and offers a child-centred, multi-disciplinary, inpatient and outpatient programme run by specialist consultants and a full rehabilitation team comprising specialist neuro-physiotherapists, occupational therapists, speech and language therapists, dieticians, neuropsychologists, play therapists as well as rehabilitation nurses.

The Portland’s Neurological Rehabilitation Unit benefits from the support of well established acute children’s services within the hospital including diagnostics, comprehensive surgical services and easy access to paediatric consultants across all specialties. Children are often admitted to PICU following trauma or acquired brain injury and once stabilised are transferred to our rehabilitation unit to commence an individualised programme to maximise their potential through one-to-one therapy and group sessions.
